

Tawfiq Al Hamada

Data Analyst | Software Engineer | AI Consultant

Damascus, Syria • [linkedin.com/in/tawfiq-alhamada](https://www.linkedin.com/in/tawfiq-alhamada) • github.com/Tawfiq-Alh

PROFILE

Data Analyst and Software Engineer (B.Sc. Software Engineering & Information Systems, Damascus University). I transform raw data into insights, KPIs, dashboards, and reports that support better business decisions — from raw data to insight to decision.

CORE SKILLS

Data Analysis & BI: SQL, Power BI, Excel (advanced), data modeling, dashboard design, KPI design
Engineering: Python, data cleaning pipelines, automation, reporting systems
AI: AI-assisted analytics, workflow automation, AI consulting for business processes

SELECTED IMPACT

- Cut reporting time from 6 hours to 30 minutes through automated reporting pipelines
- Designed 15+ KPIs and executive dashboards used for day-to-day decision-making
- Achieved 97% data accuracy across cleaned and standardized CRM datasets

EXPERIENCE

Data Analyst & AI Consultant — Freelance / Consulting

Dashboards, reporting automation, data cleaning, and AI advisory for business clients.

Software Engineer — Projects

Built data-driven applications, internal tools, and analytics systems end to end.

EDUCATION

B.Sc. Software Engineering & Information Systems — Damascus University
